BRAZOS PRESBYTERY.

Rev. James West of this City Licensed
for the Ministry.

Caldwell, Texas, April 18, 1905.

Editor Eagle:—

The Brazos Presbytery convened April 18th at 8 p. m. in the Presbyterian church at Caldwell, Texas. The opening sermon was preached by Rev. G. T. Story, the retiring moderator. His text is found in Isa LIII, 10-11. Rev. R. M. Hall of Galveston was elected moderator and Ruling Elder F. S. Robbins of Quintana was elected temporary clerk.

It was made first order of the day tomorrow to examine James R. West with view of granting him license to the ministry and it was announced that he would preach his trial sermon at 11 o'clock tomorrow.

APRIL 19TH.

Presbytery was opened by prayer by Rev. G. T. Story and a fine sermon was preached by Jas. R. West of Bryan which was commented upon by all the preachers including Dr. J. D. West. He then stood a very rigid and creditable examination and was granted license.

I can tell you if you desire to know that its no easy thing to be a Presbyterian preacher, if you doubt my word, ask James West. E. B. Lomax.

KILLS GERMS OF CATARRH.

Hyomei Goes to the Root of the Disease
and Makes Astonishing Cures.

Catarrh cannot be cured by the use of pills, liquid medicines and so-called system tonics. Under such treatment the germs of the disease will still live in the air passages and increase and multiply.

Hyomei is the only scientific and thorough way to cure catarrh. Killing the germs in the air passages, it enters the blood with the oxygen, destroys the microbes in the blood and effectually drives from the system all traces of catarrhal poison.

Thousands of testimonials have been given as to the astonishing cures made by this remedy.

Mrs. LeRendu, 76 Western Avenue Cleveland, Ohio, writes: "I believe Hyomei saved my life. I am better now than I have been in thirty years. Many doctors, both in England and France, treated me for catarrh, but I was not cured until I used Hyomei."

Probably the strongest evidence that can be offered as to the powers of Hyomei to cure catarrh is the fact that E. J. Jenkins will agree to refund the money if you say Hyomei has not cured you.

The complete Hyomei outfit costs but \$1.00, consisting of an inhaler, dropper and sufficient Hyomei to last several weeks. This will effect a cure in ordinary cases, but for chronic and deep-seated cases of catarrh, longer use may be necessary, and then extra bottles of Hyomei can be obtained for 50c.

SNOW IN WEST TEXAS.

Wheat and Oats are Doing Well—An
Abundance of Rain.

Dimmitt, Texas, April 18, '05.

To the Bryan Eagle:

I would not worry the readers of the Eagle with another letter so soon but for the fact that I wish to tell them of the recent snow. It began snowing Tuesday, April 11, and for about three hours snowed as hard as at any time during the winter. The flakes were very large and they melted as fast as they fell, as the ground was warm. We are having some very nice weather at present, and the "nesters" are making good use of it, although the indications are for more rain as it is very cloudy to-night and the wind is from the east.

Wheat and oats are up and are growing nicely; fall wheat is jointing. There is quite a lot of maize, Kaffir corn, Indian corn and sorghum planted in this community now. May is our main month for planting out here. * * * As I didn't finish this letter last night, I can tell of the splendid rain that fell during the night. I only heard it raining once or twice, but judging from the water on the ground this morning, it must have rained the greater part of the night.

Grass is looking well; we will surely have fine grass here this fall, and fat cattle. Some of our neighbors have been offered \$13.00 per head for their steer yearlings, but are holding for \$15.00.

S. I. Lee and W. P. Boyd are at Hereford to meet a car of registered Hereford bulls, shipped in from Missouri by McLean & Robb, and expect to buy four of them for their pasture.

I had the pleasure of attending an oyster supper at Dimmitt last Friday night, April 14, given by the young men of Hereford and Dimmitt. After the oysters were served, dancing was indulged in until 1 o'clock. All present enjoyed the occasion very much.

We have a doctor at Dimmitt again, having been without since last September. W. S. D.

SATURDAY, APRIL 22.

Texas should send a wreath of roses and honeysuckle to snow-bound Wyoming.

Nan Patterson evidently means to jolly her jury by declaring herself pleased with it and sure of acquittal.

Governor Commins and party of Iowa are now touring Texas. It's an off week now when we don't have a northern governor within our borders.

Houston will try the new injunction law on the gamblers. Injunction in conjunction with indictments handed down by the grand jury ought to hold them for awhile.

Mr. F. N. Levens thinks \$10,000 bonus with franchise over streets, a block of ground for power house and right-of-way will give Bryan the electric road and light and power plant, and Bryan can well afford to give it.

The Santa Fe railroad will establish six demonstration farms along its lines to show how to increase the products best adapted to this soil and climate. If everybody would pull for Texas like the railroads are doing she would soon become the center of gravity agriculturally and commercially.

The following paragraph, which originated in some eastern paper, is both truthful and applicable to Bryan in the effort to secure the Bryan-College electric line: "The only way for a town to get every good thing and public utility it goes after is for its citizens to stand solidly together on every question affecting the general good. The

amount of money one contributes is only secondary to a loyal, sympathetic support. It requires something more than the mere donation of money to secure success, and where the money support is backed by a loyal civic pride, united effort gets whatever it goes after."

Five local option measures passed by the legislature become effective July 14. The three principal ones provide first, for the return to consignor of liquors shipped into local option territory if not called for by the consignee and charges paid within seven days; second, prohibiting persons engaged in storing or keeping liquors for others in prohibition territory from allowing said liquors to be drunk within said place of business; third, prohibiting the soliciting or receiving of orders for liquors in local option territory. The other two measures relate to the holding of local option elections and to injunctions in local option elections and cases. It is stated that there are now 156 local option counties in the state.

TEXAS HOGS INCREASING.

Last week's buying of hogs on the Fort Worth market by packers, up to but not including Saturday, was 11,346. Of this number 2,154 came from Oklahoma, 1,952 from Indian Territory, and 7,230 from Texas. This state furnished almost twice as many hogs as both of the territories.

This is a market to show the progress of Texas in hog raising. Last year the bulk of all the hogs on this market came from Oklahoma and Indian Territory. We are now getting as many hogs from these territories as formerly, but Texas is now raising more than both of them. To date this year, the Fort Worth market has received about 190,000 hogs, against 112,000 for the same period last year. The increase has come from Texas.—Fort Worth Stock Reporter.

Brazos county is now shipping hogs by the carload nearly every week, nearly all of them going to Fort Worth, and the industry is growing.

THIRTEEN LIVES LOST

Disastrous Results of a Fire In Canadian Convent.

MIDNIGHT THE TIME.

Heroic Efforts of Sister to Save All the Students Committed to Her Care Prove Fruitless and She Also Perishes.

Montreal, April 21.—Thirteen lives were lost by a fire Thursday night in the convent at St. Genevieve, Quebec. There were eight girls, ranging in age from fourteen to eighteen years, one nun and four old women domiciled there, one being ninety-eight. The convent was conducted by Roman Catholic sisters. Following are the dead:

Sister Bagatera, music teacher, thirty-two years of age.
Miss Garand, fifteen years.
Miss Tessier, aged eighteen, Isle of Bizard.
Marceline Villemarie Irene Bertrant, aged eleven, of St. Genevieve.
Leona Ducast, aged fifteen, Isle of Bizard.
Eugenie Proulx, eleven years, Montreal.
Miss Dugas, fourteen years, St. Genevieve.
Miss Emma Terrault, fifteen years, Isle of Bizard.
One unidentified.
Miss Margaret Foutavan, ninety-eight years old.
Miss Rober, aged thirty-eight.
Madame Narcise Lalonde, aged eighty-to.

As soon as the fire was discovered the villagers hastened to the scene. Bucket brigades were hurriedly formed and every possible effort made to save the building, but the fire gained such headway that it was soon apparent there was no chance to save it from destruction.

The occupants, hurriedly aroused by the smoke, attempted to grope their way out of the building. Sister Bagatera, in her heroic efforts to save the lives of the children in her charge, succumbed to the smoke and flames. The pupils who perished were in the portion of the building where the fire obtained too much headway before the alarm was given to enable those who responded to rescue them. The fire started about midnight. The excitement was frightful, as it became apparent that many lives would be lost. The fire started in the old ladies' hospital and the smoke was so thick the children on the floor above were unable to get down.

The convent was called St. Annes and was a branch of the convent of the Sisters of St. Annes of Lachine.

HYDE NOT SEEN.

Promised to Send Equitable Agents a Statement Later On.

New York, April 21.—After First Vice-President James H. Hyde, of the Equitable Life Assurance Society had informed a committee of managing agents Thursday afternoon that it would be impossible because of previous engagements for him to address them the agents' convention, which has been in session in this city three days, adjourned without day.

This committee did not see Mr. Hyde, but telephoned to him at his office and was given the information that the first vice president of the Equitable was glad to receive the invitation, but could not accept. That, however, he would prepare a statement and transmit it to the committee covering the situation as he conceived it. This statement, it is understood will be circulated among the agents when received.

The invitation to address the agents followed a call by a committee on Mr. Hyde with a request that he resign as an officer of the society. This Mr. Hyde declined to do in an address in which he said he would consider such an action "unworthy and disgraceful to the memory of my father."

LESSAR PASSES AWAY.

Late Russian Minister Distinguished Himself as a Diplomat.

Pekin, April 21.—M. Paul Lessar, Russian minister to China, whose foot was recently amputated, has died. M. Lessar, who was councillor of the Russian embassy in London, was appointed Russian minister to China July 12, 1901. The deceased minister distinguished himself as a negotiator with the Chinese proposed amendments to the Russo-Chinese Manchurian treaty. Early in 1901 he began a series of meetings with Prince Chin and Wang Wenshao, who urged strong modifications of the old agreement made with the late Li Hung Chang, in order to maintain sovereignty of China over Manchuria. Russia, through M. Lessar, agreed to some of their demands, but the war with Japan ended diplomatic negotiations on the subject.

Lewiston, Mont., April 21.—Wool clips of Fergus & Sons, Fergus Bros. and Fergus Land and Livestock company, aggregating 300,000 pounds, have been sold to a Boston firm for 23 cents per pound, best record for several years.

All Bodies Recovered.

Charleston, W. Va., April 21.—All bodies have been recovered from the Kayford mine of the Cabin Creek Mining company. There is no change in the list of casualties except William Jacobs, badly burned, reported to be fatally injured. He will recover. All the dead are from Greenup, Ky., and will be buried there. Cause of explosion is said to be gas.

URGENT ORDERS.

Russian Admiral Must Rigorously Respect Neutrality of French Waters.

Paris, April 21.—As the result of communications between the governments at Paris and St. Petersburg the Russian government forwarded urgent orders to Admiral Rojestvensky to rigorously respect the neutrality of French waters. This is a precautionary measure in addition to the special instructions sent to the governor general of Indo-China, M. Beau, and Foreign Minister Delcasse has instructed the French minister at Tokio to give the Japanese minister for foreign affairs assurances that it is France's purpose to preserve strict neutrality, these being similar to assurances given to Dr. Motono, Japanese minister at Paris.

According to an official view these foreign steps should exercise a dis-

REAR ADMIRAL ENQUIST.

tinely calming influence upon Japan, as they show France has directly and through Russia adopted all available means to insure the respect of neutrality of French waters. Officials say the only additional measure open is to use French warships to employ force in expelling Rojestvensky's squadron. Such a course, however, is said to be impossible owing to the smaller number of French ships in Indo-Chinese waters. Moreover, as an official remarked, France is not in the habit of resorting to such extreme measures as using force. This is particularly true in the case of Russia, owing to the complications which might arise from France adopting forcible steps against Russia. Therefore, instructions already given from Paris and St. Petersburg are relied upon to prevent Admiral Rojestvensky from encroaching upon French territorial waters.

A telegram received here from St. Petersburg and understood to be from the official organ says: "The Russian admiralty has notified Admiral Rojestvensky of the grave danger to peace which will be entailed if the stay of his squadron off the coast of Abnam is prolonged contrary to laws of neutrality. No doubt is entertained that the admiral will carry out the formal instructions sent to him."

Dr. Motono, in the course of an interview said his request was that France observe neutrality by adopting all necessary measures for preventing Admiral Rojestvensky's squadron from remaining any longer in French territorial waters at Kamranh Bay. The minister added that Russian ships were quite inside of French waters and not outside.

Japan's representation has had the effect of bring the France-Japan incident into the front rank of public attention. Leading newspapers here adopt the government view that Foreign Minister Delcasse's assurances will calm the situation.

Deputy Delanessan, Radical Republican, former minister of marine and at one time governor of Indo-China, says in the Siecle: "We cannot ignore the fact that the Japanese people are greatly excited by the war and that public opinion may drive the Tokio cabinet to take extreme action. We, therefore, insist that the Rouvier ministry rapidly adopt steps in conformity with the interests of France and the maintenance of peace. All France agrees that the government has a duty in protecting French neutrality and thus preserving the world's peace."

The Humanita, Socialist, says: "If the impending naval battle occurs in Indo-Chinese waters and the Russian squadron seeks refuge in our ports, then France may be suddenly dragged into the conflict in spite of herself. That would mean war, and the government, which through feebleness or blindness, permitted such a catastrophe to occur would bear one of the most terrible responsibilities history has known."

Copy Presented Taft.

Washington, April 21.—Mr. Hioki, Japanese charge d'affaires here, presented Secretary Taft a copy of the note presented by the Japanese minister in Paris to the French foreign office in relation to observance of neutrality toward Rojestvensky's fleet.

COSSACKS ARRIVING.

They Are to Be Utilized in Event of May-Day Demonstrations.

St. Petersburg, April 21.—Additional Cossacks are being brought to St. Petersburg in view of anticipated disorders on May day. Two squadrons of Cossacks of the Don have arrived.

By order of the minister of education all new instructors in military schools must take the oath of allegiance to the emperor. Students who were tried for engaging in red flag demonstrations in front of Kazan cathedral Dec. 11 have been sentenced to from three to four months' imprisonment. As the time they have already spent in the fortress is credited to them, the majority of the prisoners will be released and others have only a few days longer to serve.

Ships Not Bought.

St. Petersburg, April 22.—The admiralty denies the report circulated here that Russia had bought several American warships through Paris intermediaries.

DOMESTIC FINISH

Is the very best thing in the way of laundering. It's neat, it's modest, it's dressy, it's all the go, and is less injurious to clothes than gloss finish which has to be put on by friction, much to the detriment of the garment. Had it ever occurred to you that you never get a gloss pair of cuffs, collar or shirt new from store?

There certainly must be some reason why the factories do not put gloss on their goods. Don't you think so? Of course if you want to SHINE have your collars, cuffs and shirts done up at a gloss laundry or a Celestial den, but if you want to be up to now, have them laundered at

NOT AN EASY JOB.

Working for Public Benefit a Very Unsatisfactory Task—The Electric Railway and the Knockers.

The committee who are working in the lead in the effort to get a new light plant and the Bryan-College railway put through need encouragement instead of obstacles thrown in their way by people at home. Now is not the time for discord, dark insinuations and prejudice. The people who are endeavoring to interest capital for the benefit of all our people have a hard enough time of it as it is. The following (one of a number of letters received) shows how many eastern capitalists look at the proposition. It takes hard work and persistent, patient effort and lots of time to put the enterprise through. A number of citizens have undertaken the task, after waiting a long while for somebody to take the initiative, and anybody who wants the road should help, not scotch the wheels.

Following is a letter received yesterday from the representative of an eastern syndicate. It was in reply to a long letter laying the situation fully before the gentleman:

Texarkana, April 19—My Dear Mr. Connelly: The proposition you describe would not warrant an electric railway; and if every one of your 400 students rode four times a day it would scarcely warrant a five-mile line. Moreover, such traffic originating at limited epochs calls for four very crowded cars, the balance of the day being empty. It is neither

profitable nor satisfactory. Yours truly,
E. J. Spencer.

Of course, after great pains, the proposition can be put in more favorable light, and capitalists induced to take a more reasonable view than Mr. Spencer does. But this is printed to show that these "valuable franchises," so much talked about, are not so absolutely priceless as some people seem to imagine. To the people asking for them, they represent, if procured, an opportunity to spend more labor trying to get some capitalists to take them; that is, some capitalists who will give the people of Bryan an honest deal—there are plenty of the other kind, who must be guarded against.

Moral—Don't try to serve the public if you want an easy job.

Sam Cavitt is here from Wheelock. A. A. Dean of Tabor was in the city yesterday.

Bob McFerran of Millican was in the city yesterday.

Say, don't let me forget to see R. G. Tabor about that life insurance.

REPORT ON FRANCHISES

For Lights and Electric Railway—Committee of City Council Acted Last Night.

The committee of the city council, consisting of Aldermen Howell, Boyle and Covey, held a meeting last night, and agreed on a report to the city council at adjourned meeting next Wednesday night, regarding the question of franchises for electric lights and street railway. The ordinances as presented by the committee of citizens were reported upon favorably with some slight modifications, one of which is that the company be required to run their line on Main street.

Austin, April 21.—After a lengthy consultation attorneys in Kirby-Vandervoort case agreed to limit argument to twelve hours on each side.

County Judge Hornsby was examined by the state to show that he had aided defense in selecting the jury. Hornsby admitted that he had.

Mrs. Frank Glover was placed on the stand and testified about the telephone conversation which Moore and her husband had when the grand jury was about to make an investigation of the alleged bribery, at which time the witness testified that Moore said to Mr. Glover that he thought it best they should not be seen together on the street.

Attorney Kemp testified as to Moore cursing McFall in Kemp's presence and Moore saying he was sore because he (Moore) had not advised with him.

Kalamity O'Brien was the last witness. He testified as to several trips he had made to Houston about the time that the grand jury was to take up the matter. His testimony was along the same lines given in the Moore case. He denied that he had assisted the state in the selection of a jury in this case.

PROTEST PRESENTED.

Mikado's Minister at Paris Calls to Confer With Delcasse

ABOUT THE VESSELS.

While Reply Has Not Been Officially Given Out, It Is Believed Satisfactory Assurances Have Been Received.

Paris, April 21.—Acting upon instructions from his government, Dr. Motono, the Japanese minister to France, called on Foreign Minister Delcasse Thursday and submitted representations on behalf of Japan concerning the presence of the Russian Pacific squadron at Kamranh Bay.

An official communication issued after the meeting states that Minister Motono's action had not the character of a

A VICKER'S DUGOUT ON THE HILLSIDE.

formal protest against an alleged violation of neutrality, but was to obtain assurance that France would observe strict neutrality. Notwithstanding the official version, it is evident that the intention and effect of Minister Motono's action is in the nature of a protest.

Foreign Minister Delcasse responded to the representations of the Japanese minister by pointing out the precautions heretofore taken to preserve neutrality and the special instructions recently sent to the governor general of Indo-China concerning continued care to preserve neutrality. M. Delcasse's assurances sought to allay the apprehensions of Japan, which had not been justified by any specific facts.

WAITING FOR NEBOGATTOFF.

It Is Believed Russian Squadron Is Waiting For Him.

London, April 21.—Although the information has been cabled from Saigon, French Cochinchina, that Admiral Jenguieres, who went to Kamranh Bay to assure the observance of French neutrality by the Russian Pacific squadron, has returned to his flagship at Saigon, the dispatch conveys no information as to whether or not Rojestvensky's ships are still in Kamranh. Bay Neither is there definite news regarding the progress eastward of Vice Admiral Nebogatoff's division of the squadron. While the French report that he had reached the Sunda straits is not believed on account of the known slowness of his vessels, it is considered within the bounds of possibility that Rojestvensky's lingering in Kamranh Bay may be due to the conviction that Nebogatoff will soon join him.

The Morning Post's correspondent at Shanghai declares that Shanghai is headquarters of the Russian intelligence service directing the movements of Vice Admiral Rojestvensky. The correspondents reports that there are indications of a likelihood of the Russian cruiser Askold attempting to quit the port. Five Chinese warships, it is added, have been ordered to watch her.

Passed Straits.

St. Petersburg, April 21.—The ministry of finance has received a telegram from a confidential agent at Shanghai giving a rumor that Admiral Rojestvensky has already passed the Straits of Formosa without encountering Togo.

Advancing Northward.

St. Petersburg, April 21.—A telegram from the seat of war in Manchuria states that the Japanese armies are advancing northward, preceded by cavalry.

VANDERBILT LOSS.

Fire in Institute Caused Two Hundred Thousand Dollars' Damage.

Nashville, April 21.—The total loss in the fire at Vanderbilt university is placed at \$200,000. The operation of the university will not be interfered with. The building was a three-story structure and was built in 1874 at a cost of \$125,000. There was \$75,000 insurance on the building and \$40,000 on the furnishings.

CHILDREN CREMATED.

Three Burned to Death and Another Fatally Injured.

Greensburg, Pa., April 21.—By the explosion of a bottle of gasoline in the home of John Kunkle, three children of the family were burned to death and a fourth so fearfully injured that her recovery is a matter of doubt. The dead: Paul Kunkle, seven years old; Alice Kunkle, five years old; Louise Kunkle, three years old. The injured is Katherine, two years old. Three members of the fire department were also badly burned.

Attorney A. M. Wyant and John S. Murphy, who attempted to rescue the children from the burning home, were severely burned and cut about the hands and arms by glass.

Fifty turpentine operators of Alabama, Texas, Louisiana, Florida and Mississippi have formed a combine with \$3,500,000 capital.

LOOKING TOWARD TEXAS.

Houston, Tex., April 20.—L. H. Bailey, Northern industrial agent of the Southern Pacific Railway Company, returned today from a four weeks trip in Illinois and Iowa. Mr. Bailey states that the Northerners are having a backward spring this year, and that many of the people up there are so disgusted with weather conditions that they are talking strongly of coming to Texas.

"Their eyes just bulged out when I told them about picking ripe oranges and strawberries here in December, when they were harvesting ice two feet thick to put up in their houses for the coming summer. The truth about Texas seems to stagger those Northerners," concluded Mr. Bailey, "and it is not necessary to exaggerate existing facts in the slightest. I look for a large emigration from the North, Central, West and East this year."

MRS. FAIRBANKS OVATED.

Daughters of the American Revolution
Compliment Indiana Lady.

Washington, April 20.—When the
fourteenth congress of the Daughters
of the American Revolution convened
Wednesday it was expected that the
most important work before the body
the election of national officers, would
be completed before adjournment.

Mrs. Sarah T. Kinney, state regent
of Connecticut, named Mrs. Charles
Warren Fairbanks as the honorary
president general of the Daughters of

MRS. G. W. FAIRBANKS.

the American Revolution. The dele-
gates rose as a body and gave Mrs.
Fairbanks an ovation. The nomination
was made an election amid enthusi-
astic applause.

The voting for national officers be-
gan at 4 o'clock, under the supervision
of three inspectors representing the
three candidates for president general,
and was very slow, several hours be-
ing required to cast the vote of the
congress. As the ballot was absolute-
ly secret there was no possibility of
ascertaining the result until the votes
were counted.

Voting for the candidates for presi-
dent general and various vice presi-
dents general closed at 7:30 o'clock
Wednesday night. The ballots then
were handed over to the tellers, who
spent the greater portion of the night
in counting them.

"We, the agents of the Equitable Life

hurtful notoriety you have achieved,
and for the good of the society, which
you ought to love, and for the memory
of your father, which you must reverse,
discontinue your connection as an of-
ficer of the society."

Agents appointed a committee of
five to wait on Mr. Hyde and request
him to tender his resignation.

New York, April 20.—The Times says

controversy. The negotiations were
closed by cable on Monday and Mr.
Choate, on his return to this country
about June 1, will, it is understood,
take an active part in the Hyde cam-
paign.
